

Found Hidden Gems in Canadian Thrift Stores | TrashTalk #9

Trash Talk Nation This is a very special episode of Trash talk You're about to see we were in Canada Gary decided he wanted to go out thrift shopping and in a matter of moments we were in a car on our way I think that's one of the great things about trash talk is if you live in a town where maybe you don't want to wait for the weekend to go to a garage sale These videos really are intended to teach you how to go and make money any day of the week This is my second time shooting trash talk stepping in for the illustrious d rock Hope you enjoy it Trash talk How many villages are there and throw out many good We're gonna go in a mall I think I really think thrifting on a Saturday if you really get knowledgeable about a lot of categories is a 2 \$300 Saturday I mean me and AJ A poor AJ cause I I see me and AJ AJ did the fucking posting and shipping fucking digital camera Take out the disk put in the computer Slow internet Now do do do on your fucking phone while you're eating a fucking Tim Hortons burger You know like fuck does Tim Horton sell burgers Tell you the Village Painter shop You're big on mugs man I'm huge on mugs because it's an easy thing to learn Right again This is where you decide you want to list it for 15 and sit on it for a while you know But this I'd probably buy because Christmas is coming up and I'd probably put it in Yeah let's take that put it towards uh just one smurf right here It is really smart I know what it is It's a 1982 peo smart figurines Some of them are quite rare Yeah This bag of 499 between that isn't a Pokemon like this is a winning bag A little older Yeah we're gonna take this we'll break it down later I'm excited to do the homework in the bag that I just grabbed and that's what you have to do when you first start because you don't know anything You've got to take a couple of risks just to learn What made you draw that one out This Yeah I appeal right Just like you just know that people like skeletons you know that shit adds up that you know \$17 five bucks What's happened here What happened here is \$25 for this register This is 20 bucks The amount of hipsters in Brooklyn You know this Nema this is exactly what people pay \$40 for in a actually this fits nicely This Mario hat is fucking flex Toronto thrift stores Like what is that 40 It's gonna kill thrift store life You gotta love it Hop out for 30 minutes All right Now one of my favorite things to do is these little fun packs they get for a and you can really start to break them down This is one of the risks But again for a lot of people

watching it's not for loss because this is what he learned in his dinosaur racer
And again this goes to marketing You take this picture underneath and you
go here and you go you know vintage retro old rare you know dinosaur Some
people know which dinosaur This is uh eighties nineties eraser You put this
for 15 bucks on Etsy I'm telling you it sells oh this is what I was hoping for
Pokemon motherfucker right now I just gotta do You guys know which poke
fun this is and be like here we go \$10 You can turn and be someone who shot
You'd probably get 10 for an hour as well But this is 25 bucks for shipping
plus \$5 free shipping I'm gonna look up Garfield I look up Cabbage match
kid I'm gonna look up the Smurf but I'm just gonna play and say this is
another 10 45 50 Here's the thing Again this keeps going down to what I'm
trying to say a lot of people on earth today are making minimum wage 12
\$13 an hour We're an hour all in now Like all that work We stayed in the
store here a little while the driving But we're like at 50 here all that But
here's the thing the education starts to build you know five minutes ago he
didn't know that this was worth \$35 Guess what happens Four months from
now when you go to a garage sale and there's a 50 of these in a bag for 10
bucks Didn't go straight for the toys Mugs Always the mugs mugs So you
get into a place like this Heineken hat That's a big one You like this I do like
that 8 49 Fuck Why are these hats so goddamn expensive I'm pissed right
now This is again this is where a garage sale is like 2500 and 50 cents a hat
and chihuahua is trying to get ridiculous on us here You move to stuff right I
would love to But like I don't know when can I go shake his mouth Gary B
yo how you doing man Good brother Nice to meet you man Can I get a
picture with you You can That's a pleasure to meet you man You're a good
guy man Thank you B with the VGV The thing that I really wanna do that
I'm not into yet is t-shirts one because it's it's paper shirts kill nobody It's all
pop culture It's why the whole it's why be friends come so much 6 49 for 20
holy shit This could be worth 40 bucks sold What's it for 5 49 To me I like at
least 10 \$20 profit because with the fees and everything but it's right on that
border But again that one's over 13 I I you can list this for 22 bucks The
hardcore Brian Adams fan buys it for taking it You could see like right away
like we're not doing as well This tells me like this is like a understood
location Like this location feels as though there may be more flippers that
come through It feels like I don't see as many things available You know
what I mean The board game is a big thing It can be got a winner here Nina
Condition matters for board games Yeah Matters for everything Still looking
for vintage games Yeah 1976 Cool years So here is \$21 So you see it range

from 8 to 21 If you're willing to have it sit in your house you'll get your price when people see eight and 20 Cool Like if you want to sell it quick you go for eight If I bought that for \$1 maybe I go 15 to get it out But if I buy for five Ok Put it for 20 plus Christmas is coming all of a sudden Maybe that's 25 0 thank you 11 28 on two board games Vintage 55 65 bucks all day 24 7 365 motherfucker Love it to the I can tell you already It's not gonna be a good garage sale Let me tell you why because of the sign it means these people do garage sales all the time I promise When we go right now it's gonna feel more like a flea market than a garage sale But we'll see Hi How you doing Are you looking So how much are the \$1 each You do \$20 for the pins I don't think so Why not Because too many I tell you what what \$30 are all yours but there's over 30 here That's what I'm saying \$30 all yours There's too many There's not I mean not enough here I'll tell you what 25 bucks I can't go no lower You got 25 bucks on you Somebody has 25 bucks \$5 here 5 10 15 2025 There you go You don't have it There's got to be a bank close It took us a few minutes to get the cash But boy oh boy you have no idea what just happened People don't understand that Pins are insane It would be \$25 for all these pins I cannot wait to show Nema the first one First pin \$4 This is the fun part for you This is the best part for me It's gonna end up being 10 bucks Us First Germany World Cup P 25 Get your money back if you bulk all 63 of those And they're averaging for 5 to 7 let's just say 63 at seven It's 424 like this this is easily \$250 in a bulk set that somebody takes if they're into P \$25.02 50 Well that's good I love the internet and you're not getting enough engagement So you have to get creative Then I reply or when you want to teach people how to fish you know the best part of being on the receiving end of cynicism is when it's not true If I was doing that post to get 80 likes or 8000 likes Well then there's nothing to tell There's no reply to talk about I can't be mad at somebody who's trying to razz I gotta love them back The reason the world's struggling right now is fear and hate on fear and hate Just its fear and hate and fear and like where's love in the equation
