

## "Is the Internet Hurting the Youth?" | DailyVee 608

Hate and darkness may seem like it's winning at half time But love and brightness and kindness always always wins the game when the clock strikes zero I'm a purebred entrepreneur for real for real for real like documented That is Sunshine Your favorite marvel characters when I got into comics for as a reader in like seventh grade I loved fantastic Four The human torch was my guy thing I'm not a I'm not a big captain America guy I'm not a big um I'm not as big as Spiderman guy as most people you know I would go with human torch So this is pretty crazy I'm literally backstage at uh at brand Mines um in Bucharest Romania Uh All these years later five years later and sure enough with the recession looming the big theme for the rest of this year for everybody who's watching This is really actually saving money So please take a step back and realize all the things that you want to accomplish require financial smarts and with everything looming the time to get smart What's your name My name is nice to meet you is that I feel that I have something bigger inside me that wants to go out But at the same time I have something that is keeping me at a certain level Maybe it's it's over the fear like the fear of what fear that's this At the end of the day the thing I think that makes me not scared is I know that all of them don't care because their judgment shouldn't matter to you because you have to realize it doesn't matter to them Over the last five years us human beings have gotten very good at something Let me tell you what that is We in the last decade have become remarkable at blaming everyone and everything besides our own selves It may not be fun to face the mirror and understand your shortcomings It's not fun for me I have plenty but I promise you you want some anxiety to come off your chest You wanna smile a little more than worry It starts with accountability And I believe as we head into this decentralized world accountability will gain momentum and that will be good for society Bucharest I love you Thank you for having me I think it was a very compelling like clarity Like I really liked it What do you think I on just like I think it helped people understand I like when I like when I feel the audience like learning you know like oh right It's not just like a turtle with a fucking banana up its ass You know what I mean This is real fucking technology ready Yep The message that I would tell the entire world if they were watching right now is never be confused Hate and darkness may seem like it's winning at half time But love and brightness and kindness always always wins the game When the clock strikes zero you could go back if you were a

kid Tell yourself one thing to me that everything you think that nobody else is thinking is actually true Just trust yourself Let me tell you what I meant there because Dustin asked me to you believe things today that most of the world doesn't I think it's better to stick to it and see it all the way through especially when it's positive It's just sometimes it's really hard to see Like I would have never thought like I always wanted to be a video editor when I was 14 Like but I just was like oh I can't that's not gonna be a real job And here's my point ready for this You would be a better one because if you fucking oh man I wish there was a video on you your face right now You'd be a better one because if you believed it all the way you would have you would have fucking went all in I wanna give the 15 year olds of the world the 30 year old confidence Actually I've never said that before That is really what that clip that what am I up to I'm advancing self confidence How are you Hello Hello nice to meet you Thank you for having me Cheers Let's take just an ordinary family in Milwaukee Wisconsin I love this I love the question of middle class middle class upper middle class How are they going to own and use NFTS What is the what is the their their favorite coffee shop that sells them \$7 latte The punch card that gives them an 11th free coffee will be an NFT in a decade It's creating infrastructure that people can't see yet That's a beautiful example of the mundane S and B normal person That was so fun Yeah that was so fun listening Thank you Send me 100,000% We're starting an NFT project in Romania and we own a coffee shop that sells accepts Cryptocurrency Amazing And when I released press release we had only two buyers That's it And everyone laughs about us I said I love when they laugh when they laugh you know it's going to be good good for you I'm proud of you You're ahead of it yet yet You know how many orders I used to get on wine library dot com in 1995 1212 Patience That's just like all time It's almost like maybe you talk over it in the podcast Be like by the way five seconds Later Gary took five steps and this conversation happened Go figure you know like that might be a good you see where I'm going That'd be neat Let's do that Promise me I'm gonna bring back my old wine library TV Skill sets Here we go Thank you my friend Thank you All right I'm the s moved back to Australia two weeks ago and they won't let me go in Germany and they go well can you do this is But it's good news I have Russian chest hair I could drink this shit I've got the vodka DNA Cheers Cheers to good health Here we go guys like de re he's been there Done that eat us That's my dad's favorite thing in the world What is it Cabasa When I tell you I eat this every day of my life from like 7 to 15

Cabasa I have to say that I also right You have two kids out of the 12 which are two of the most important things that you talk to them from that of the 12.5 Of course you know I think when I think about the book and like how I think about the kids I think accountability The second we all decide it's somebody else's fault for our unhappiness is the second we're unhappy I want my Children to be compassionate and empathetic to other human beings Obviously they have a very different life than I did And they're very blessed and it requires them to be double compassionate and empathetic And so those are the two that stand out How can I keep my daughter nine years old away from these dangers from the only two things One you actually don't let her spend time on it which as you know is very hard because everybody in her world will be on it Two And this is the most important The number one way to protect the child is to build their self esteem When a child is not insecure they don't succumb to danger if you make her confident in who she is But she's amazing the way she is she will not succumb to other people and that is how she will have a dance Very nice Thank you Well I'll sit right here So all right we'll get to know each other We'll talk Yeah I'm excited I'm excited I want my intuition says yes Now we spend the next two or three weeks and do it and then we take the next step I really liked him I really like the product and I'm going to spend some time to dig under the hood Thank you Thank you It was a brother It's good to see you see you in April Hopefully before Thank you You did a great job Thank you Thank you Thank you Nice meeting you Nice meeting you Thank you Thank you Thank you brother Thank you Yes we love you guys We love you guys
